

NOMINATORS, the success of this program relies on you! Imagine yourself shopping for a child with no information. Putting many items does not mean you are asking for too much, it means you are allowing the sponsor choices which make it easier for them to shop. Gifts that do “not fit” the child’s size, style, or interests are wasteful and can only lead to disappointment.

Below is the form the **SPONSOR** will see based on the information you provide. Please list gifts in the designated categories to make shopping more convenient. Remember, many of our sponsors are shopping for several children at once, sometimes as many as 20!
