CHILDREN**

ADDRESS EDUCATION FUNDING NOW

Our students can't wait

Legislators must address education funding and reverse the additional \$58.2 million in cuts to public schools before the start of the regular legislative session.

Irreparable harm to our children's education will occur if the legislature fails to take action.

Stop the damage to teaching and learning. These cuts have resulted in

- ▶ fewer resources for our children
- ▶ increased class sizes
- ▶ layoffs of teachers whom children have come to depend upon

Restore funding. Prevent towns from being forced to make the harmful choices for children and schools they are making as we speak.

Please stand up for our children and our public schools.
